

# October 2011 Inspection Report

## St James Parish Church Clock, Montego Bay

### LOCAL NAME & CONTACT INFO

Norman Andrews, Verger

Report by: Philip Martin  
Jamaica.heritage@yahoo.com

Location near downtown Montego Bay. N18.47260° W -077.92158°. Elevation 1 meters. This clock is working at this time. Has three dials. Clock bell measures a huge 48 inch diameter, 48" overall height. Thomas Mears founder London 1840. The bell is not supported and in danger of falling. The engine has been replaced with an electric "Gent" movement. The floors of the tower are concrete and very substantial. There is a bell chime not connected with the original movement.

### General Conditions

- 1) General conditions unknown until inspection is preformed.
- 2)

### Suggested Actions:

- 1) Un known until full inspection. Internal repair of clock engine is obvious.
- 2)
